QHAWE CREDIT SOLUTIONS
NEXT-GEN DIGITAL LENDING INFRASTRUCTURE

CONFIDENTIAL SPECIFICATION

PRODUCT ARCHITECTURE & UI/UX DESIGN SYSTEM

Automated 15-Minute Digital Lending Experience (Web & Native Mobile PWA)

Comprehensive product specifications, visual user journeys, and technical integration blueprints calibrated for Qhawe Credit Solutions. Built on modern open banking rails, passwordless authentication, automated DebiCheck mandates, and instant RTC clearance.

- ✓ Phase 1 Cap: R5,000
- ✓ Passwordless SA ID + OTP
- ✓ Automated DebiCheck & RTC Payout

PREPARED BY
S&S Tech Group (Pty) Ltd
Digital Banking & Financial Systems Engineering

DATE OF PUBLICATION
October 2026 / Version 1.2
Target URL: apply.qhawecreditsolutions.co.za

Project Calibration & Executive Summary

Alignment of client parameters, risk mitigation rules, and multi-channel delivery architecture.

PHASE 1 LOAN CAP CALIBRATION

R500 – R5,000

Per confirmation from Mr. Maqhawe Kwanda Xolo, initial lending operations will be capped at **R5,000** to minimize credit exposure while building an automated repayment track record.

First-Time Borrower Safety Cap: Limited to R2,500 until first successful DebiCheck cycle.

DELIVERY PLATFORM STRATEGY

Web & Native Mobile PWA

Borrowers experience an app-like interface matching modern standards (such as Falakhe Funerals app format). Installable directly from browser onto iOS & Android home screens without app store friction.

Design Benchmark: LendPlus flow architecture infused with Qhawe brand palette (Navy & Gold).

Core Underwriting & Regulatory Parameters

Parameter	Approved Policy	Enforcement Mode
Eligibility	Valid 13-Digit SA Green ID / Smart Card, Age 18+	Instant Home Affairs ID Checksum & Verification
Affordability	Min. Net Salary: R4,500 / month (3+ months tenure)	Open Banking instant digital statement analysis
Hard Exclusions	Active Debt Review, Administration Orders, Judgments	Automated Credit Bureau Gateway (TransUnion / Experian)
Pricing (NCA)	Statutory formula (5% monthly interest + initiation fee)	Automated Pre-Agreement Statement (NCA Form 20.1)
Repayment Rail	DebiCheck mandate authorized via mobile banking app	Direct bank push notification on payday
Disbursement	Real-Time Clearance (RTC) direct to borrower bank	Funds reflect within 60 seconds of DebiCheck approval

LendPlus Reference Adaptation Summary

While referencing LendPlus for high-converting customer flow patterns (interactive loan sliders, transparent fee breakdown, and instant bank linking), the Qhawe system elevates the experience with **zero password friction** (instant OTP onboarding) and an integrated **Borrower Portal** with 1-click repeat reloans.

Passwordless Authentication & Profile Creation

How customers onboard and log in: Zero passwords, zero friction, 100% bank-grade OTP verification.

JOURNEY 1: FIRST-TIME BORROWER

Instant Auto-Profile Creation

1. **Select Amount:** Customer adjusts slider (up to R5,000, capped at R2,500 for first loan).
2. **Enter Phone & ID:** Submits 13-digit SA ID number + mobile phone.
3. **4-Digit OTP:** Receives instant OTP via SMS & WhatsApp (Sender ID: *QhaweCredit*).
4. **Background Profile Generation:** Upon OTP confirmation, the platform automatically generates an encrypted borrower account. **Customer never creates or memorizes a password!**
5. **Proceed to KYC & Bank:** Captured details seamlessly persist into employment and banking steps.

JOURNEY 2: RETURNING BORROWER

1-Click Fast-Track Repeat Reloan

1. **One-Tap Login:** Customer enters their 13-digit SA ID Number.
2. **Instant OTP:** 4-digit code verifies their identity instantly.
3. **Portal Dashboard:** Borrower enters their personal portal showing current loan status, balance, and next payday countdown.
4. **1-Click Reloan (60s Disbursal):** If existing loan is settled, credit limit automatically increases (up to R5,000). Reloan is disbursed in under 60 seconds with pre-linked bank account!

Technical Verification Rails

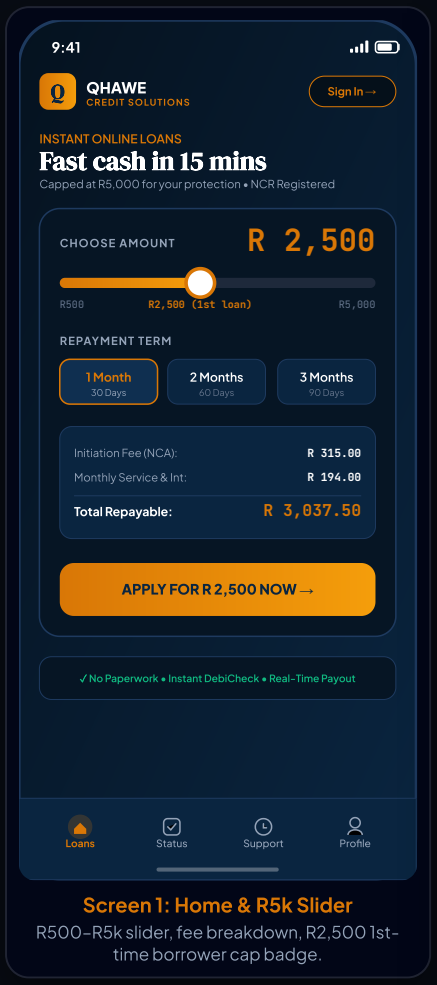

SMS & WhatsApp OTP
Redundant multi-channel delivery ensuring 99.9% OTP delivery rate within 5 seconds across Vodacom, MTN, Telkom, and Cell C.

ID & KYC Verification
Home Affairs checksum validation verifies identity, age, and deceased status before credit checks commence.

Auto-Save & Persistence
Incomplete applications are auto-saved. Drop-off recovery triggers automated WhatsApp reminders to resume application.

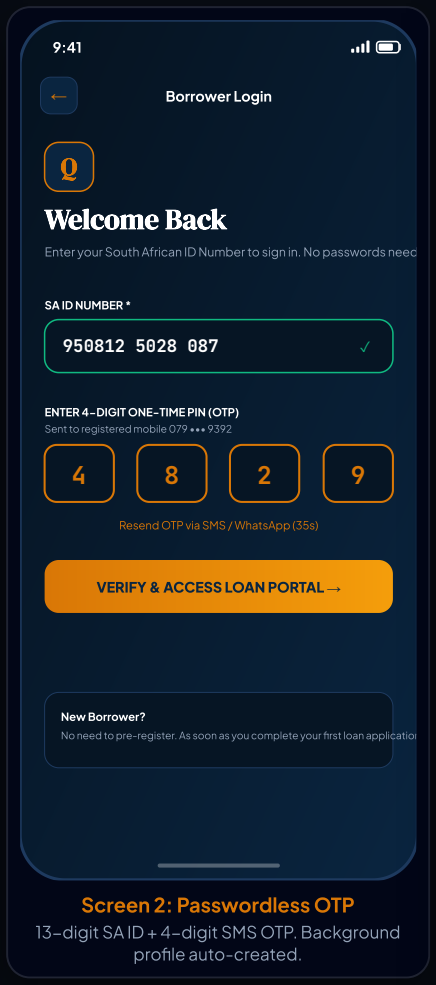

Mobile App Flow: Discovery, Login & KYC

Native PWA experience: Interactive slider, passwordless OTP verification, and frictionless profile creation.

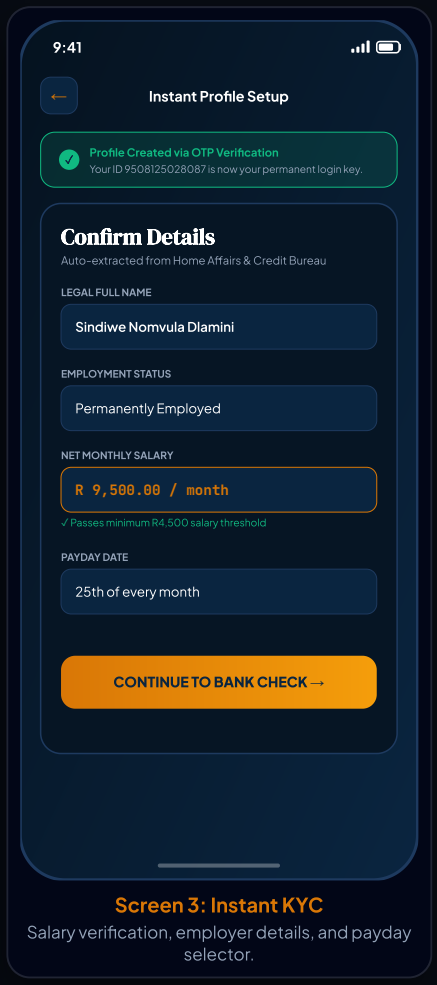

Screen 1: Home & R5k Slider

R500–R5k slider, fee breakdown, R2,500 1st-time borrower cap badge.

Screen 2: Passwordless OTP

13-digit SA ID + 4-digit SMS OTP. Background profile auto-created.

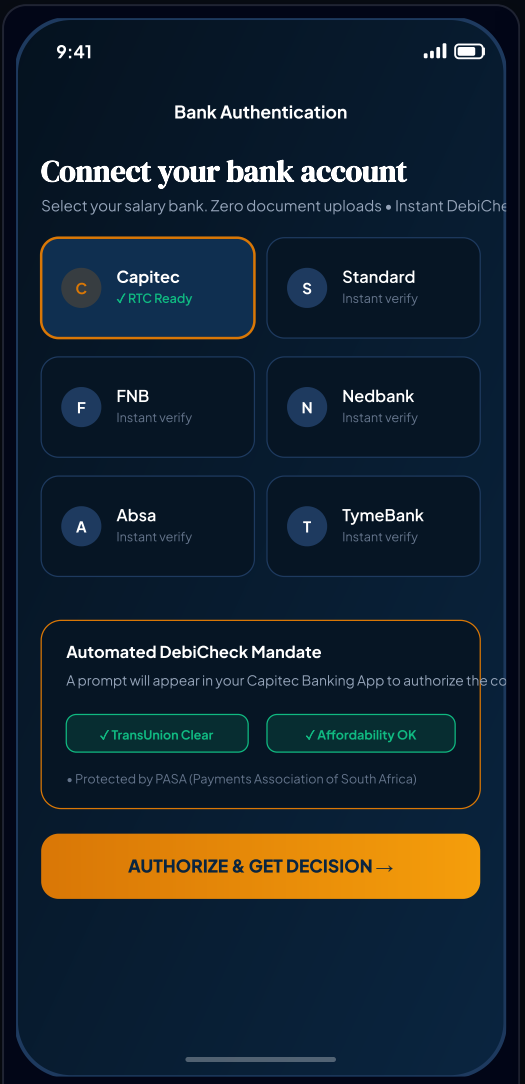

Screen 3: Instant KYC

Salary verification, employer details, and payday selector.

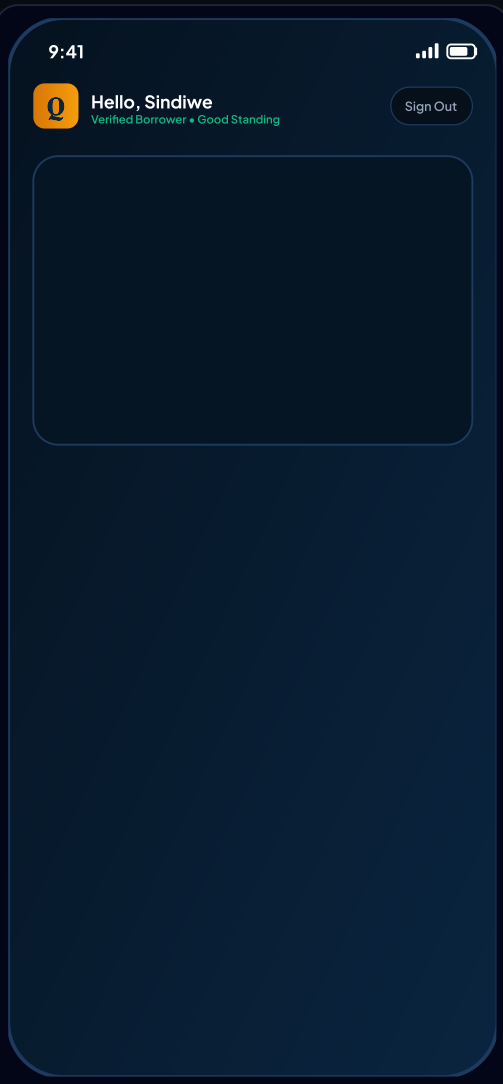

Mobile App Flow: DebiCheck & Borrower Portal

Bank authorization bottom sheet, instant RTC payout, and repeat reloan dashboard.

Screen 4: DebiCheck Sheet

Bank linking, instant statement analysis, and DebiCheck authorization.

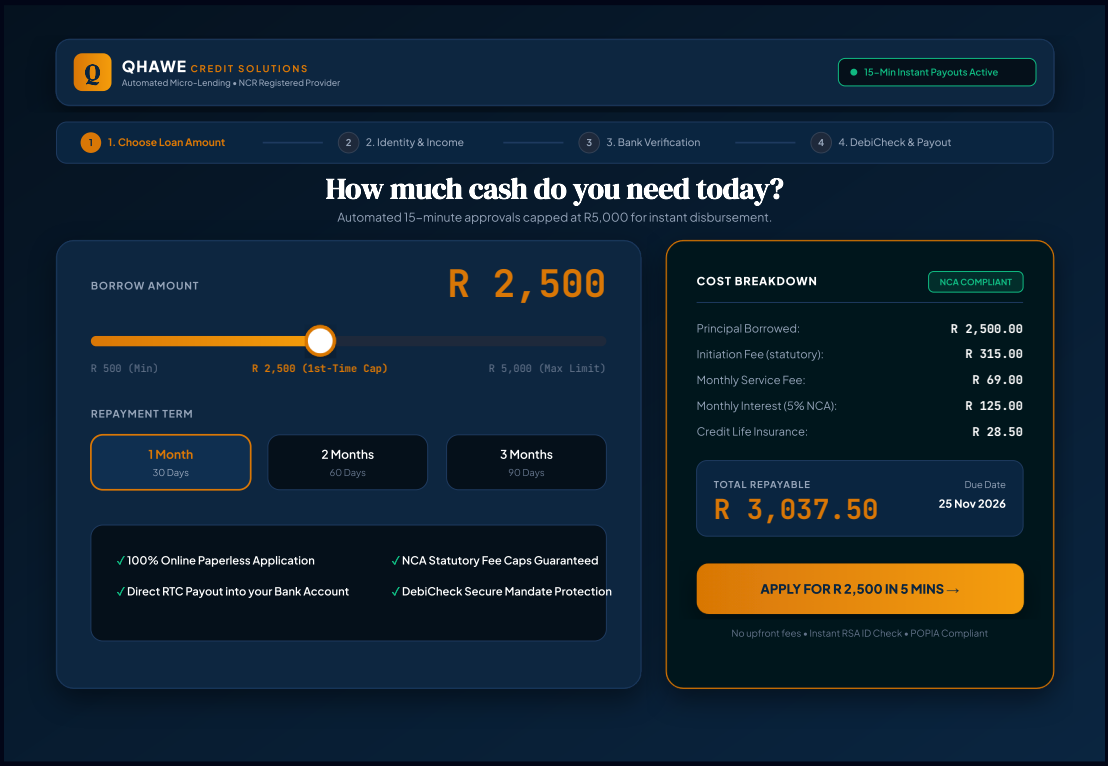

CURRENT ACTIVE LOAN Disbursed (RTC) R 2,500.00 Due Date: 25 Nov 2026 (18 Days Left) R 3,037.50 Pay Early (Save R) DebiCheck Active ✓ REPEAT BORROWER 1-Click Instant Reloan Because your Capitec bank and ID are already verified, borrow up to **R5,000** instantly with no new forms. Select Loan: R 5,000.00 (Max Limit) DISBURSE R 5,000 IN 60 SECS → A+ Qhawe Credit Rating: Excellent Eligible for repeat tier upgrades up to R15,000. Loans Status Support Profile

Screen 5: Borrower Dashboard

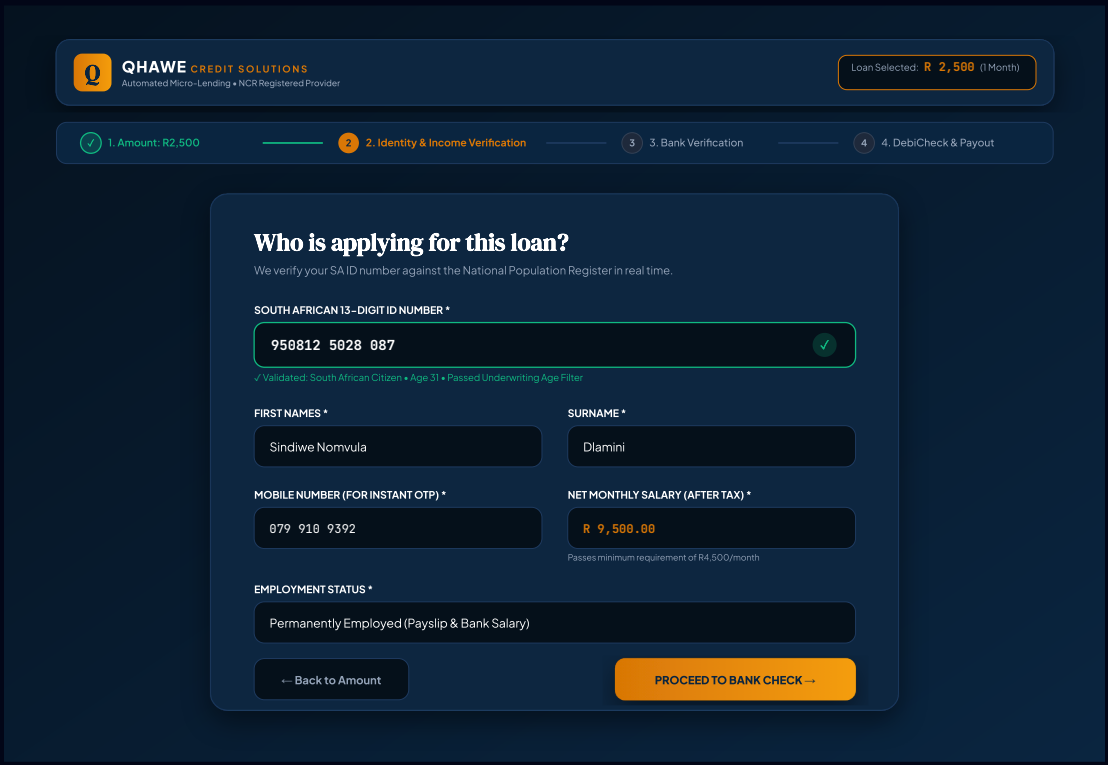

Web Experience: Hero Calculator & Onboarding

Full desktop layout: Real-time loan calculator, statutory fee breakdown, and borrower application form.

Desktop Screen 1: Hero Calculator & Slider

Interactive loan amount (R500–R5,000) with dynamic repayment calculator and NCA fee disclosures.

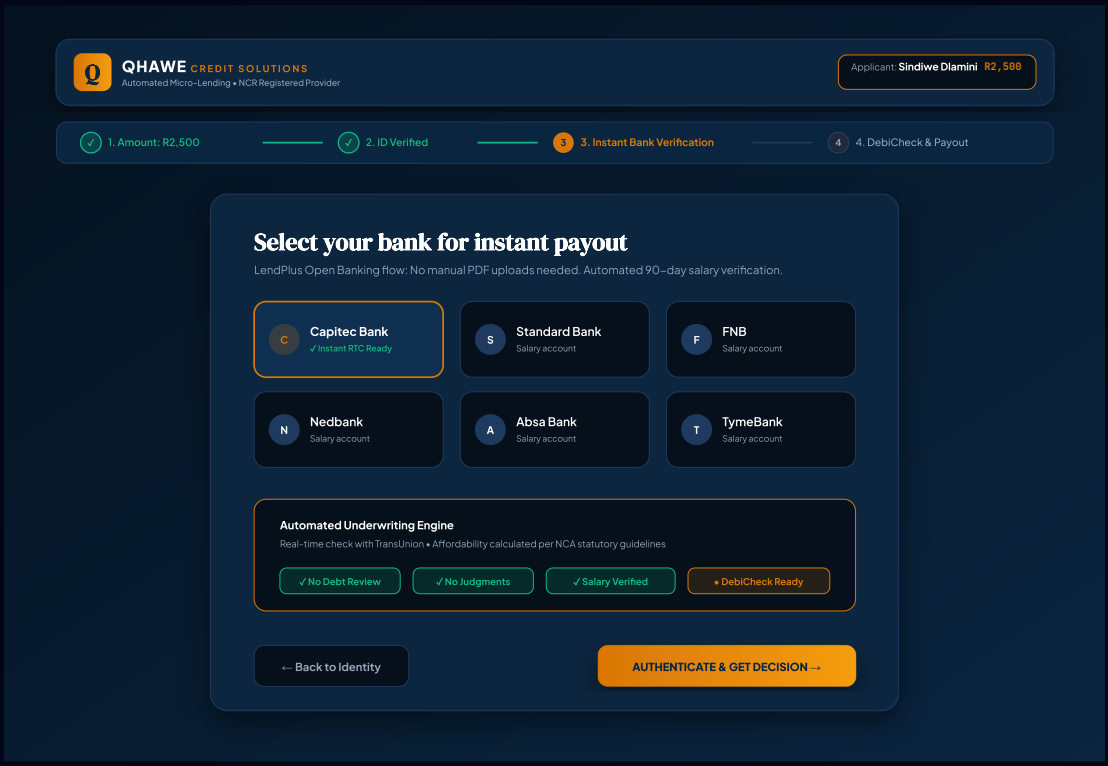

Desktop Screen 2: Identity & Affordability KYC

SA ID capture, net monthly income, employment status, and primary banking provider selection.

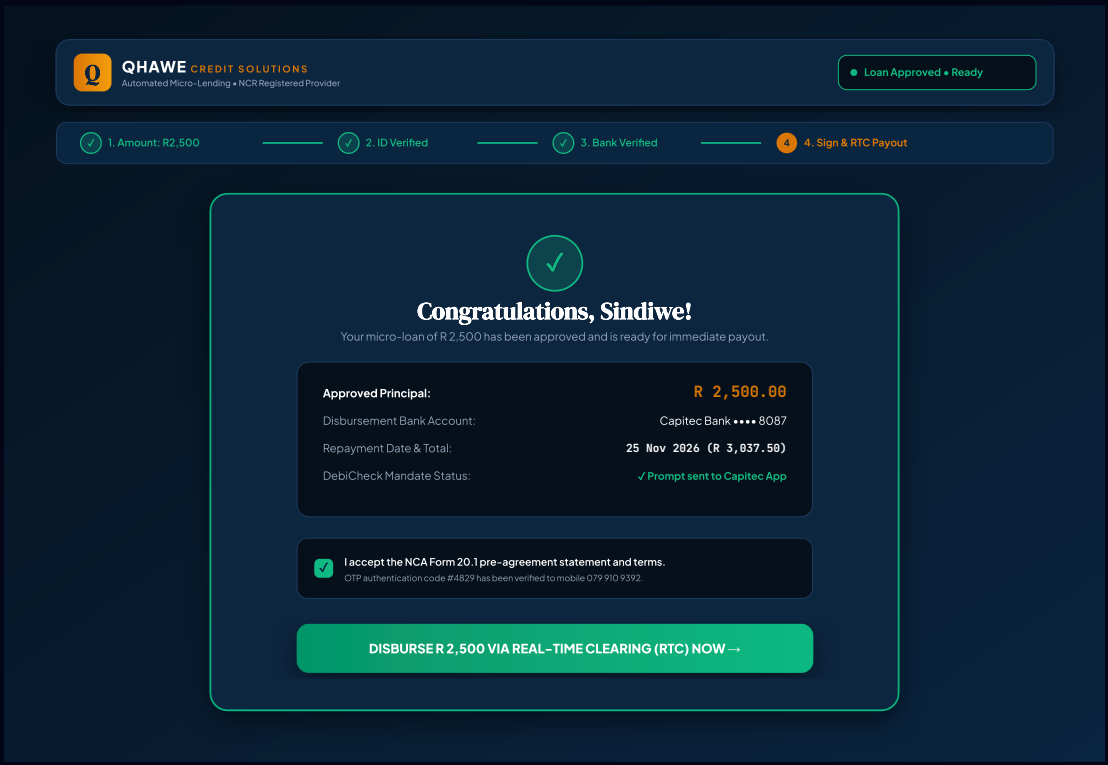

Web Experience: Open Banking & Instant Disbursal

Seamless statement verification, DebiCheck mandate authorization, and real-time clearance payout.

Desktop Screen 3: Open Banking Bank Verification

Direct Stitch / Ozow banking integration for 3-month digital statement extraction with zero paper upload.

Desktop Screen 4: DebiCheck Approval & RTC Payout

DebiCheck mandate confirmed on banking app; instant RTC disbursement dispatches funds within 60 seconds.

Technical Stack & Implementation Roadmap

Enterprise infrastructure components and scheduled milestones for platform launch.

Architecture Components

Frontend Application

React 18, Tailwind CSS, Lucide Icons, Vite, PWA Service Worker for offline resilience & home screen installation.

Backend & Database

Node.js / Express microservices, PostgreSQL with Prisma ORM, audit logging, and automated revision management.

Banking & Collections

Stitch / Ozow Open Banking, NuPay / Hyphen DebiCheck automated mandate engine, Real-Time Clearance API.

Security & Compliance

AES-256 encryption at rest, TLS 1.3 in transit, POPIA compliant data residency, automated Form 20.1 generation.

Next Steps for Client Sign-off

1. Review and confirm the visual screens, loan slider limits (R5,000 cap), and passwordless OTP flow.
2. Review onboarding specifications submitted via `sstechgroup.co.za/qhawe-onboarding`.
3. Upon approval, S&S Tech Group commences Phase 1 staging sandbox deployment on `apply.qhawecreditsolutions.co.za`.
